

Debbie Does Atari

The days of sneaking around and hiding old Playboys at the bottom of your underwear drawer are over. Now you can sneak around and hide dirty video games.

We can't describe the graphics of these games from American Multiple Systems, but we will tell you they are rather graphic, if you catch our drift. *Bachelor Party* and *Beat 'Em and Eat 'Em* should be big hits, along with *Custer's Revenge*, although we have no idea why General Custer would

Battle Of The Network Stars

Recently the *New York Times* printed a story about a Hollywood service that might add a whole new dimension to the term "bit parts." It seems

be in the same desert as Pocahontas, much less the same century.

American Multiple Systems also plans to release VCS versions of *Debbie Does Dallas* and *Talk Dirty To Me*, but they won't be available for a few months. So until you can get your hands on these cartridges, you'll just have to fantasize about them. □

that Tom Papke, a California entrepreneur, is convinced that computers will soon play a much bigger role in show business and so he has formed a new company
